

IF YOU WERE AN ENGINEER – WHAT WOULD YOU DO?

South of England, Year 5 Award Winner

Name:
Chloe Beton

Gender:
Female

School Name:
Redlands Primary School

Year Group:
Year 5

Which engineer inspired you?
Mike Dann & Dave Stubbs

What company does your engineer work for?
Designcraft & Gravatom

Dear Sir/Madam,

I am writing to explain my fantastic invention. It is for people with two hearing aids can listen to music without having to take their hearing aids out.

It can be used in two different ways. The first way is as a normal hearing aid with the second way is as a music phone. If you want to listen to music you don't need to take your hearing aids out, you can just plug it into your phone and the back of your hearing aids.

It will be important you can hear hands free when talking to somebody. You can listen to music without having to take your hearing aids out.

I hope you can see why it is important that my invention is made.

Yours faithfully
Chloe Beton
