

Primary Engineer LEADERS AWARD London

Primary Engineer® Programmes
...the first step

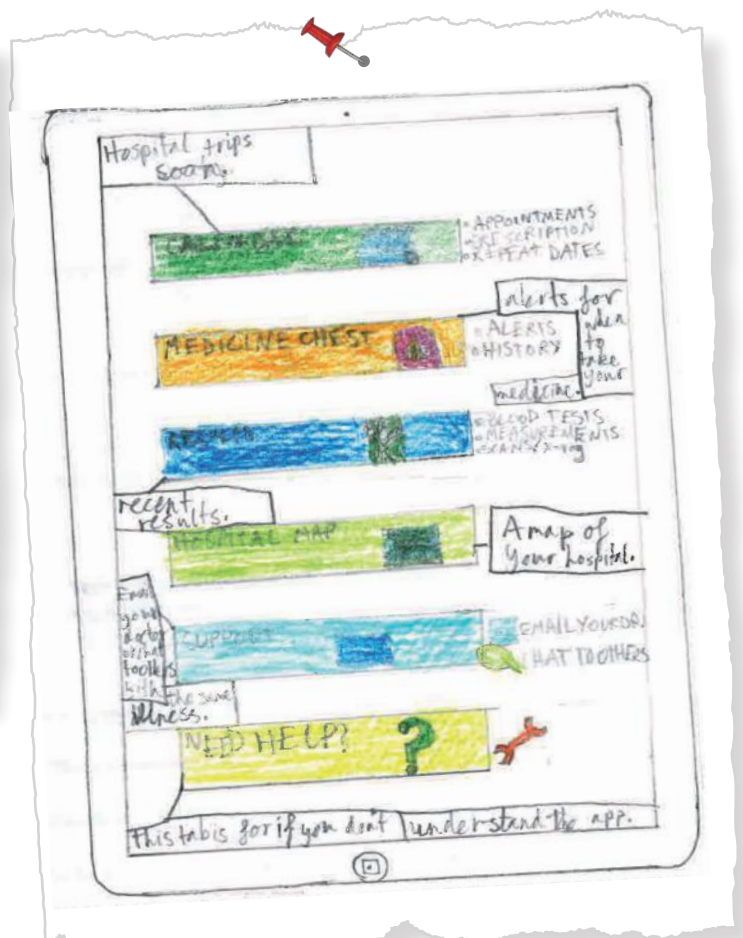

IF YOU WERE AN ENGINEER – WHAT WOULD YOU DO?

London, Year 3 Award Winner

Dear Beatrice,
I have designed an app for people with chronic illnesses. It has a map, a calendar, a support forum and a 'NEED HELP?' tab. It also contains a support forum for when you need to take your medicine and your recent X-rays, blood test results. I am entering my app in the STEM awards. I really really hope I get through!
The STEM awards are DT awards where you choose an idea and enter it in a booklet.
The judges, who are engineers, judge your idea and if it is really, super good you get through. If your idea is truly amazing then you actually win!
As a prize the idea is made into life and last year's winner was Setrys Galloni.

Love,
Claudia Q
XX
