

IF YOU WERE AN ENGINEER – WHAT WOULD YOU DO?

South of England, Year 4 Award Winner

Name:
Jacob Beatty

Gender:
Male

School Name:
Temple Ewell Church of England Primary School

Year Group:
Year 4

Dear Engineer,
 'Alzheimer's Rewind Machine'
 Do you have Alzheimer's or do you always forget things, so use the 'Alzheimer's Rewind Machine' and you will never forget anything. But how does it work?
 First carefully put the belt on. Then put the screen on the belt but be careful not to drop it. Next, add the headphones. Finally, record all the things that you can't remember and every day listen to all of the things. You can use the '5 ke-ram' to see what you have recorded.
 I think you should make it because Alzheimer's can get bad and it's a must-have machine.
 My Mum inspired me because someone in my family has it!
 My invention will make Alzheimer's not forget as much as I wanted to do it for people with disabilities because my sister and my cousin have disabilities.
 Warning!!!
 Without a doubt for this reason don't break the belt because it has the battery on it to charge.
 Yours Sincerely, Jacob Beatty
