

IF YOU WERE AN ENGINEER – WHAT WOULD YOU DO?

South of England, Year 3 Award Winner

Name:

Lili Butler

Gender:

Female

School Name:

South Farnham School

Year Group:

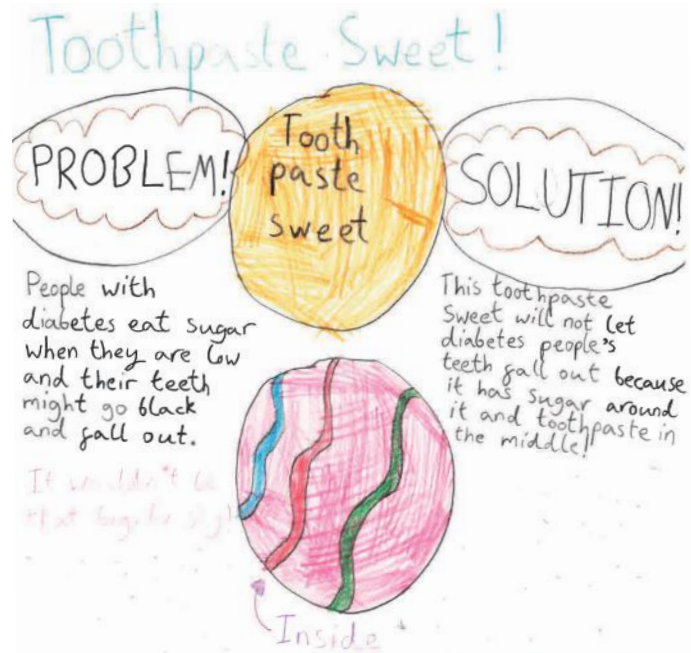

Year 3

Which engineer inspired you?

Bill Austen

What company does your engineer work for?

Qinetiq

I WANT TO HELP MY
 DAD AND SISTER WHO
 HAVE DIABETES!

Dear Lead Engineers,

I am writing this because I know a solution to this problem: people who have diabetes eat sugar when they are low and their teeth might go black and fall out.

South Farnham
 Menin Way
 Farnham
 Monday 20th

The solution is a toothpaste sweet with sugar around the toothpaste in the middle. It will help my Dad and my sister who have diabetes. To make this invention I would need a chemical engineer to help me.

You should make my invention because all people with diabetes need sugar and toothpaste!

Yours Sincerely,

Lili Butler.
