

IF YOU WERE AN **ENGINEER** – WHAT WOULD **YOU** DO?

London, Year 4 Award Winner

Name:
 Lyla Geraghty

Gender:
 Female

School Name:
 St James Primary School

Year Group:
 Year 4

Which engineer inspired you?
 C. Davies

Dear Engineers,

My name is Lyla, I am 9 years old and I am so interested in animals. I go to St James school. Last term a Civil Engineer came to our school and she showed us that London's soil is too soft to build tall buildings. She also showed us that the whole thing of building is important.

My design is to help mothers with small children that need a buggy when traveling. This product is a buggy with a suitcase attached to it. It is designed for 1 child only. ~~It can~~ The buggy part can fold back into the suitcase which makes it a foldable buggy.

Yours Sincerely, Lyla Geraghty
