

# Primary Engineer LEADERS AWARD Greater Manchester

Primary Engineer® Programmes  
...the first step

IF YOU WERE AN ENGINEER – WHAT WOULD YOU DO?

## Greater Manchester, Year 2 Award Winner

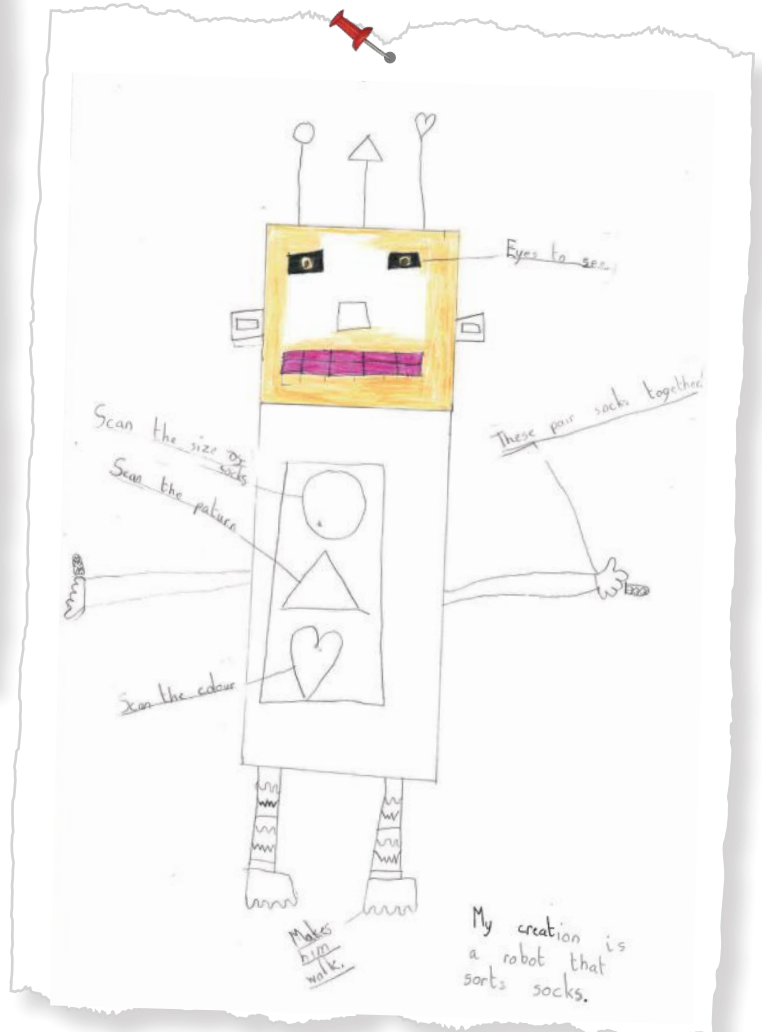

Dear Judges,  
I would like you to consider my design in the Primary Engineers Programme Leaders Award 2017.

I've invented a sock sorter called Sock Sorter because I can never pair socks. The Sock Sorter scans the size of the socks, scans the pattern and the colour. Then it pairs the socks together and puts them in the drawers. My invention helps adult's pair socks so they can wear paired socks every day. It will also let children wear paired socks every day too.

It is different because adults and children can use it.

It is mechanical for all the robot pieces. It is electrical for all the pieces that tell it what to do.

I really enjoyed designing my creation and reviewing the engineer. I hope you like my design. Yours sincerely, Martha Bullough

Name:

Martha Bullough

Gender:

Female

School Name:

Christ Church CE Primary School

Year Group:

Year 2

Which engineer inspired you?

Phil Greenwood

What company does your engineer work for?

Sellafield

SIEMENS
