

# IF YOU WERE an ENGINEER WHAT WOULD YOU DO?®

SCOTTISH ENGINEERING LEADERS AWARD 2019: National Winner, Secondary 1

## The Weighable Suitcase

ever have the struggle of locking up your suitcase and having to lift up the heavy thing. Well now you don't have to. With the weighable suitcase it weighs itself so you don't have to. Just simply switch on the weights and sit it on the back. It is as easy as it can be.

**Name:** Kaitlin Bennett  
**Gender:** Female  
**School name:** Kilmarnock Academy  
**Year group:** Secondary 1  
**Which engineer inspired you?** Dawn Childs  
**From which company?** Merlin

'The Weighable Suitcase', and whilst this was one of two designs she entered (and not her favourite) the judges really liked the idea of a suitcase which weighed itself.
