**Year group:** Year 6  
**Which engineer inspired you?** Dave Whetton  
**From which company?** BCM Fariva

The '**Bracelet**' is designed to help people who have type 1 diabetes. It tells people what number their blood sugar is on, the bracelet can change colour and tell the time. Aviva designed the 'Bracelet' as she has type 1 diabetes and understands how hard it can be to test your blood all the time with a finger prick.
