

IF YOU WERE AN **ENGINEER** WHAT WOULD YOU DO?®

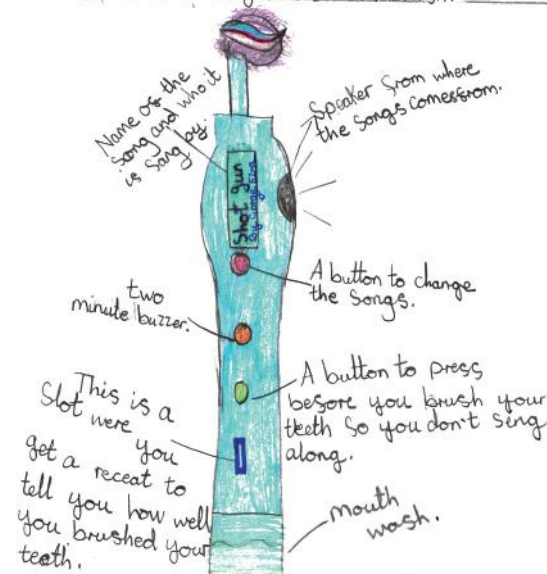

North East England Leaders Award 2019

Winner, Year 4

Techno Tooth Brush

TECHNO Tooth-brush

This invention is to make people happier when they are brushing their teeth. But don't worry about the music because it is already on the tooth brush.

Name:	Isobel Moat
Gender:	Female
School name:	Broadway East First School
Year group:	Year 4
Which engineer inspired you?	Giancarlo Amenta
From which company?	Contur Services LTD

This toothbrush stores a number of tunes which it shows on a display panel. The user selects a song and brushes along. After 2 minutes a buzzer is activated to show that the required amount of brushing has been achieved and a performance score of toothbrushing is displayed to show the effectiveness of the exercise. Hum along to your favourite song as your teeth get super-clean.
