

# IF YOU WERE AN **ENGINEER** WHAT WOULD YOU DO?®

**Tees Valley Leaders Award 2019**  
**Winner, Year 4**

## RGE No-Starter

You know when you haven't plugged in your seat belt and it comes on to show it on the dash the engine won't start. So if you don't plug in your seat belt the car goes 60 m per hour.

This is the engine.

The springs stop as well

The no-starter

Name:	Reese Burrows
Gender:	Male
School name:	Oakdene Primary School
Year group:	Year 4
Which engineer inspired you?	Eleanor Davies
From which company?	Burroughpold Engineering

Children sometimes do not put on their seatbelts as the driver starts the journey and this device will stop the car from starting if the seatbelts for all seats occupied are not secured.
